

## DAILY LESSON SUPPORT FOR PARENTS AND TEACHERS

Welcome to issue two of our newsletter. In this edition we would like to look at daily video lessons and support available for parents and teachers.

Some of these are published through educational websites, whereas others are links to platforms such as YouTube. As with any online platform, online safety is critical, so please consider your own policies before sharing with pupils.

We want to reassure you that we are here to help to support you through this. If you have any questions or are wanting some advice please get in touch. No question is too small! We have a highly experienced team of colleagues at our computing hub, alongside a collection of Subject Matter Experts from the NCCE who can offer you free support for remote learning or delivering your computing curriculum.

### TOPIC 01

Welcome

### TOPIC 02

Daily Lessons

### CPD

Check out [teachcomputing.org](https://teachcomputing.org) for links to all our FREE BURSARY FUNDED\* remote and FREE online courses available.

Below are a range of online learning available for schools for free to help assist them with home learning. This is by no means all the options available but hopefully it can give your staff a starting point.

## OUR SUPPORT

As a Computing Hub, our aim is provide fully funded support to teachers in the delivery and implementation of the computing curriculum, free online CPD courses and fully funded remote courses which may also be bursary supported. Please get in touch if you would like any of this support. In addition, we can support your school **now** outside of any other support already agreed to help with remote learning.

Please contact us if you would like a virtual training session on any aspects.
