

Primary NQT+ Programme

NEW for this year— our custom designed NQT+ programme.

This year's trainees and NQTs will have faced a significant reduction in their classroom experience and, as such, this is going to have a huge impact on them when they take up their NQT posts. Alongside this they will have missed much subject specialism training which is essential if they are to teach science effectively. To help these trainees, and current NQTs, to succeed and remain in the profession we have designed our programme to support them through this difficult year.

Subscription

As a school or MAT you can subscribe to individual components of the programme or the package as a whole, resulting in significant savings. We also offer discounts for multiple schools within a MAT.

"Newly qualified teachers who take part in our science CPD are 190% more likely to still be teaching two years afterwards, compared to non-participants" ^[2]

NQT+ programme	Detail	When	Cost per school
3 x Network meetings	Termly NQT Meetings—liaise with other NQTs, participate in focussed discussions on pedagogical issues	September, January and June	£180
1 x Remote CPD sessions	<ul style="list-style-type: none"> Back to school: primary Science for NQTs (5 x 45min remote facilitator led sessions, 4 x asynchronous learning tasks) 	<ul style="list-style-type: none"> Autumn Term twilights 	£50
3 x Face-to-face sessions	Choice of either <ul style="list-style-type: none"> Teaching EYFS Science AND Teaching Key stage 1 science Or <ul style="list-style-type: none"> Teaching lower Key Stage 2 Science AND Teaching Upper Key Stage 2 Science 	<ul style="list-style-type: none"> 1 day course Spring term 1 day course Summer term 	£300
NQT conference	A conference with keynote speaker and several workshops to boost pedagogy and practice	Summer term	£85

Primary NQT+ Programme

Reason for discount	Discount	Cost per school
Whole Programme	12%	£550
Between 5 and 9 schools	5%	£523
10 or more schools	10%	£495

Supporting offers from STEM Learning

STEM Learning

As well as the NQT+ programme STEM Learning have a range of offers available to all teachers within Science. These are detailed below.

Online CPD

www.stem.org.uk/online-cpd
Free to access

Residential CPD

www.stem.org.uk/cpd
Bursary supported

Managing behaviour for learning

Build trust in your classroom, control emotional responses and develop routines

Maths in science

Courses for each subject reflecting the increased maths demand in exam specifications.

Introducing assessment for learning

Learn how to write, judge and use the hinge questions that are central to AfL in STEM. Supports Early Career Framework standards 4 and 6

Primary Science Conference

The defining conference for primary science, helping teachers and leaders inspire pupils, develop cross-curricular approaches and tackle the science curriculum

Teaching primary science: getting started

Tackle practical work in primary science, develop your confidence and explore a range of techniques
